

# ZOO MAP

"Where both people and animals have a good time" is the theme of our park. Based on this theme, our green and lush zoo has eliminated cages and fences, and recreated the animals natural habitats with plants and rocks, etc. The zoo is divided into several zones, including the Temperate Forest, Tropical Forest, Savanna Zone (Africa and Australia), and the Jungle Museum. More than 1200 animals from about 110 species live here.
